

GIANT TROLL WAGON!

BUILDING STEPS

Are you tired of your troll warriors getting bruised trying to drag their giant trolls back to the fortress? Then this is the LEGO Castle vehicle for you!

The Giant Troll Wagon features six (count 'em, six!) hand-carved stone wheels and can carry up to 20,000 lbs worth of giant troll without a single brick giving way. It has easy-access feeding ports and an easy-slide ramp in the rear that's reinforced for even the heaviest feet. Roomy enough to transport at least six trolls in comfort and style, it even has a roof for blocking out the sun on the hottest days in the kingdom.

You can even chain captured knights in front to drag it along! This is one wagon no troll kingdom can live without.
